

A Modern Approach to ECM: Moving FileNet Image Services to AWS

[GET THE WHITE PAPER](#)

The business case for migrating from a legacy enterprise content management (ECM) system like IBM FileNet to a modern one is stronger than ever, thanks in large part to flexible, open platforms like Alfresco and cloud services like Amazon Web Services (AWS).

Connect with Technology Services Group to discover how Alfresco ECM on AWS gives you:

- Greater environmental flexibility
- Auto scaling to scale up and down as needed
- Amazon S3 API to directly access stored objects
- Direct content linking with S3
- Amazon CloudFront content distribution network (CDN) to publish S3 objects to edge storage locations
- Elastic Load Balancing (ELB) as a security gateway and for fault tolerance and scalability
- Consumption-based billing online tools to help achieve cost optimization

About Technology Services Group

Technology Services Group, Inc. is a leading provider of content management integration services and software solutions, as well as an Amazon Web Services Partner and Alfresco Partner.
